## Ordering Prints of your Favorite Photos...

*...made easy. Zenfolio combines the best in photo hosting, easy ordering of high quality prints, and protected galleries. Reprints are available in addition to prints included in standard packages.*

Kodak E-Surface - Slightly textured for a Matte Finish. This paper is the most popular choice.

Kodak Metallic - Uses a patented combination of film and laminate layers that result in a striking 3D image on an ultra bright background. This paper is truly impressive.

Ilford True Digital B&W - Imaging performance and characteristics of this paper are the same as traditional B&W continuous tone papers.

Lustre Coating - Protects against UV light, finger prints, and dust. With the coverage and appearance similar to lacquer, this coating gives you a rich, glossy sheen. (Optional, priced \$0.75 to \$2.50 additional per print)
